THE COMPLETE DISTRIBUTION AND SUPPLY SOLUTION

POWER SUPPLY

WATER SUPPLY

METERING

Hawkins Electrical Limited, the only hook up manufacturers with experience gained over 5 decades brings you the UNI BOLLARD. The most UNIQUE, UNIVERSAL, UNIFORM bollard available to the leisure industry. The UNI BOLLARD is a complete power and service supply unit. Each unit is easily upgraded through a system of easy access and simple assembly. Manufactured from robust, quality materials each unit will stand the rigours of daily usage and inclement weather for years to come. The UNI BOLLARD is also the fastest of all hook up bollards for access and component replacement and the perfect choice for your site.

The UNI BOLLARD is fully adaptable to meet the needs of your site. As well as distribution of power, bollards can be equipped to allow provision of water and television signals. Alongside supply and distribution these bollards are able to be used for illumination, traffic management or area signage.

The UNI BOLLARD is also probably the first bollard to meet the exact requirements of BS7671 (2008) section 708. The UNI BOLLARD is also certified IP44 - IK 08. The UNI BOLLARD is the complete solution...

EASY ACCESS AND ASSEMBLY

The UNIBOLLARD has been specially developed by Hawkins Electrical Limited to allow ease of access and assembly. Maintenance and upgrading of the unit can be completed easily through fast and simple assembly.

- ① The top cover is held on by 4 security fixings, remove these with the special tool and lift off lid.
- ② With top cover removed, the main isolator should be switched off before proceeding any further.
- ③ Unplug the light connector (if light fitted).
- ④ Using other end of special tool supplied locate end on wing nut on chassis and undo three turns. Repeat this on other side of chassis.
- ⑤ Using upright plastic stem handles slide modular equipment backwards until outside of reset flap rear case.
- ⑥ Slide rear wall upwards for access to rear of bollard.
- ⑦ Slide front wall illuminated (if fitted) for access to front of bollard, ensure light connection is unplugged.

NOTE To re-assemble, repeat the above steps in reverse order.
